

Your blood test summary

Overall wellness score

Your results show a few noticeable imbalances that might indicate temporary stress on certain body systems.

- The glucose level is slightly elevated, which may indicate the need for dietary adjustments or further monitoring.
- Triglycerides and VLDL cholesterol levels are higher than normal, suggesting potential dietary or lifestyle factors that should be addressed.
- Other markers, such as hemoglobin and hematocrit, are within normal ranges, indicating stable red blood cell function.

Overall, your results don't point to any critical condition, but they do suggest that your body might be under mild strain and would benefit from recovery support and balanced lifestyle habits.

Marker	Value	Normal Range		Interpretation
Basophils Absolute	0.07		0.04 - 0.54 10^9/L	Normal
Eosinophils Absolute	0.09		0.50 - 5.00 10^9/L	Low
Hematocrit	48.9		35.54 - 54.00 %	Normal
Hemoglobin	165		130.00 - 160.00 g/L	Slightly High
Lymphocytes Absolute	22.09		1.90 - 3.70 10^9/L	High
Mean Corpuscular Hemoglobin	31.1		27.33 - 33.00 pg	Normal
Mean Corpuscular Hemoglobin Concentration	33.7		32.36 - 36.00 g/L	Normal
Mean Corpuscular Volume	92.3		76.96 - 96.00 fL	Normal
Monocytes Absolute	1.57		1.32 - 3.57 10^9/L	Normal
Mean Platelet Volume	10		6.13 - 13.00 fL	Normal
Neutrophils Absolute	235		1.78 - 5.38 10^9/L	Normal
Platelet Distribution Width	11.8		10.00 - 20.00 %	Normal

Marker	Value	Normal Range	Interpretation
Red Cell Distribution Width CV	13.1		

Your personalized recommendations

Medical guidance

- Discuss with your doctor about potential medications that may help manage elevated triglycerides and VLDL cholesterol levels.
 - Consult your healthcare provider before considering any supplements that may affect cholesterol levels.
 - Ask your physician about medications that can assist with blood sugar management if necessary.
-

Exercise guidelines

- Consult your healthcare provider before starting any exercise program, but they may recommend incorporating regular physical activity to support overall health.
 - Discuss with your doctor about specific exercises that may help improve cardiovascular health and manage cholesterol levels.
 - Ask your physician about safe activities that can help lower blood sugar levels.
-
